REQUEST FOR CITY COUNCIL ACTION

MEETING DATE: 8/20/2007

DEPARTMENT ID NUMBER: 07-044

Analysis: A resident of Adams Avenue requested that the Public Works Department amend the existing permit-parking district. Students from the nearby high school have created a high on-street parking demand on Adams Avenue. The ensuing influx of vehicles has resulted in a need for increased police enforcement requests.

The Public Works Department has reviewed the requirements for posting the permit parking district and estimate a total cost for the installation of \$234.02. The Municipal Code requires residents in the permit district to pay for the cost of establishing or amending the district. A fee of \$234.02 will be collected in addition to the adopted permit fees, with the first permit issued for this address as reimbursement to the City for the initial installation costs.

The district was established in 1989 to address similar impacts from the nearby school. The home at the 522 Adams address was not included in the petition at the time and the property appeared to be unaffected. It is also the only property with an Adams address in the area. Subsequently, the property owner expressed similar concerns and requested to be included.

Strategic Plan Goal: C-2 Provide quality public service.

Public Works Commission Action: Not required

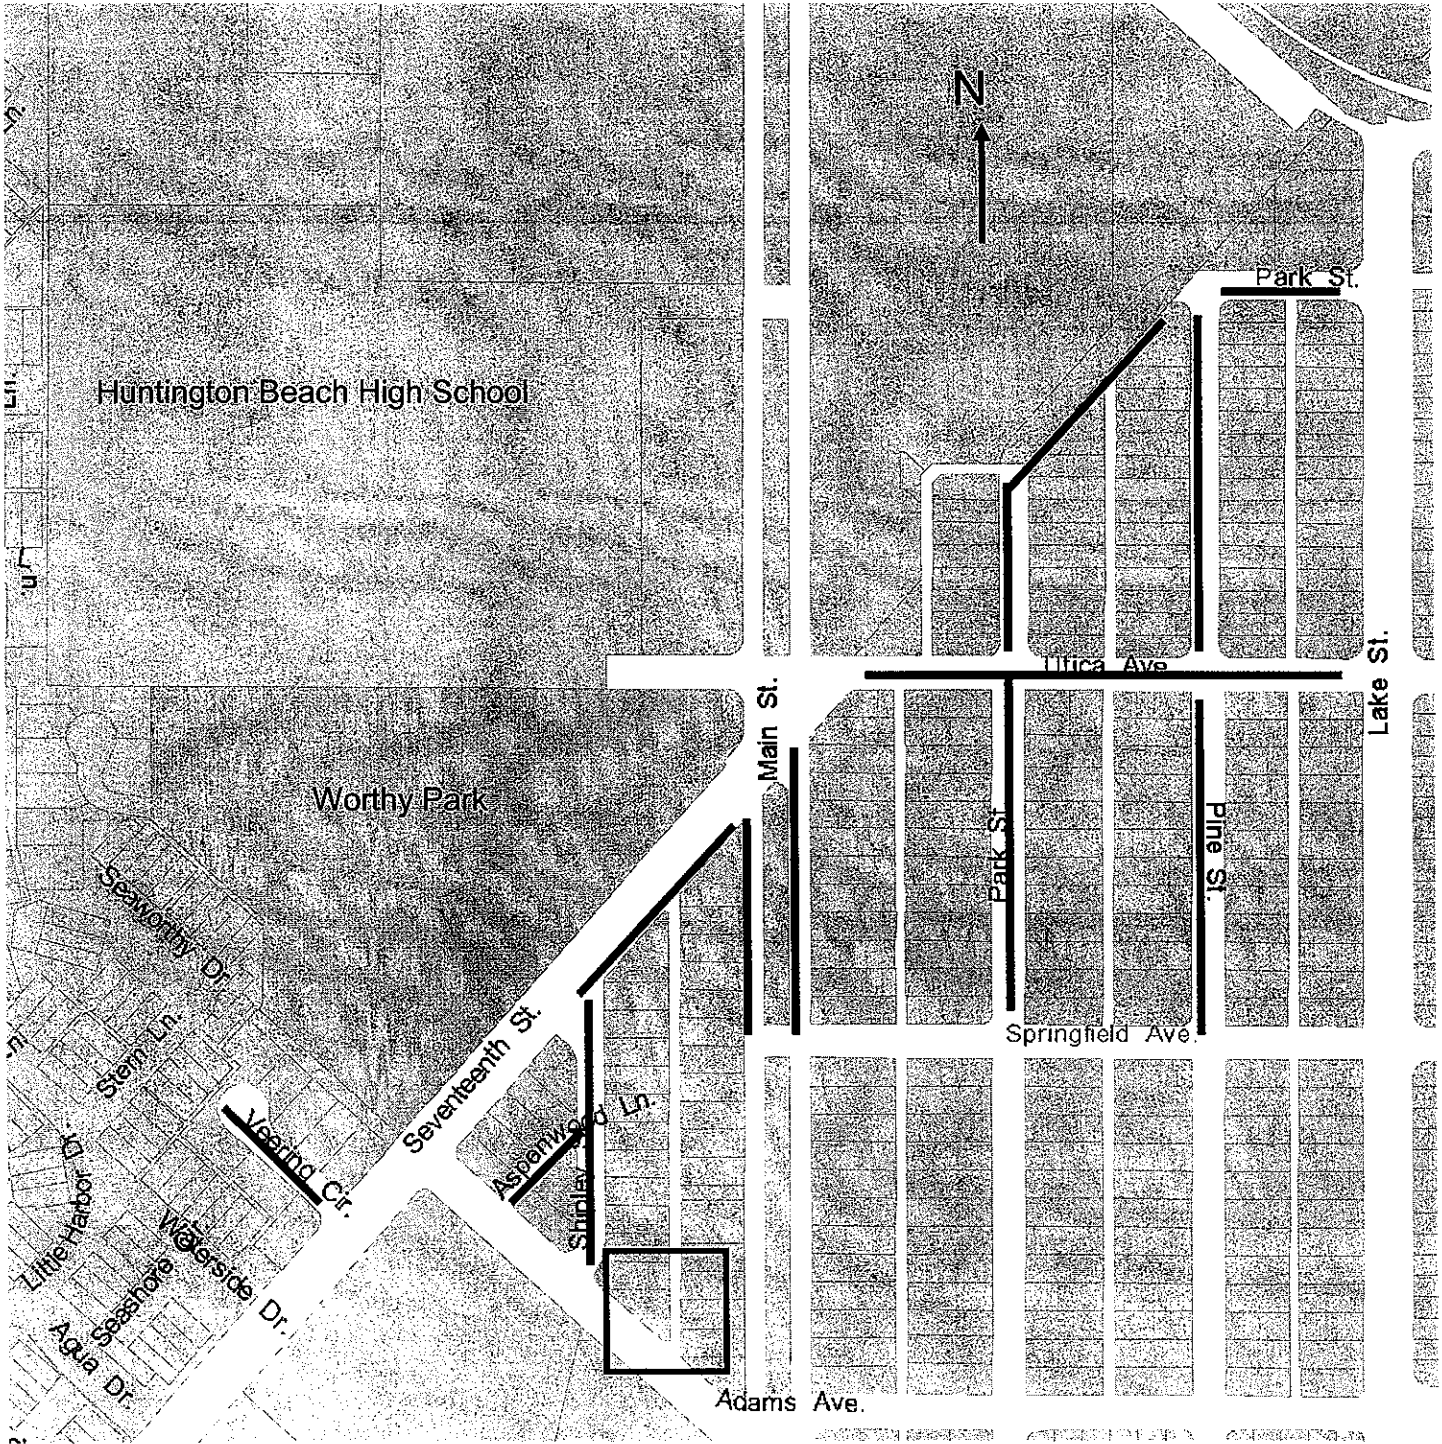

Environmental Status: Not applicable
